

CQG Trader

The speed and reliability of our charting product in a streamlined quote and trading platform.

The screenshot displays the CQG Trader interface with the following sections:

- Quote Board:** A table of market data for various symbols including EPH7, ENQH7, USAH7, EU6H7, CLEJ7, TYAH7, GCEJ7, EEUH7, EDAZ7, QFAZ7, QAK7, EMAH7, DA6H7, and FVAH7. It shows bid/ask prices, volume, and price changes.
- Account SIM:** A summary of the account's current status, including working orders and filled orders.
- Working Orders:** A table listing active orders with columns for B/S, Qty, Symbol, Order Price, Fill Price, and Type.
- Filled Orders:** A table showing completed orders with columns for B/S, Qty, Symbol, Order Price, Fill Price, and Type.

CQG Trader provides DOMTrader, Quote Board, and Orders & Positions view.

This screenshot shows a different view of the CQG Trader interface:

- Quote Board:** Similar to the first screenshot, but with a different set of symbols including HOEH7.
- Account 1213 - DTE+P/L: 262.50:** Shows account details and a list of working orders.
- Working Orders:** Lists orders for symbols like USAH7 and EPH7.
- Open Positions:** A table showing current positions for EPH7 and USAH7, including long and short quantities, currency, price, and OTE.
- Fill Report:** A pop-up window showing details of a recent fill, including fill time, symbol, bought/sold quantities, price, order ID, and account.

Visit www.cqg.com/CQGTrader to request a login and demo CQG Trader.
