

MD Trader[®]

The Most Sought-After Technology in Trading

MD Trader is the market-depth front-end order execution software developed by Trading Technologies (TT) that gives traders one-click order entry with the **fastest market connectivity in the industry**.

MD Trader combines market data and order entry/management in one simple template.

Manage all your trading on one screen*:

- Net Change (+2.5)
- Account Name (MY FUND)
- Market Volume (112910)
- Net Position (2000)
- Manually enter order size (200)
- Customizable order size keys (1, 5, 10, 20, 50, 100)
- Clear order size (CLR)
- Default order size (100)
- Set your order types (stop limit/market, OCO, TSL)
- Drop-down box for additional orders (MIT, LIT, IOC, etc)
- Delete All Orders (Del All)
- Delete All Offers (Delete 930)
- Delete All Bids (Delete 200)
- Close price gaps in your display
- Slide bar below delete
- Flatten with one click (Trade Out)

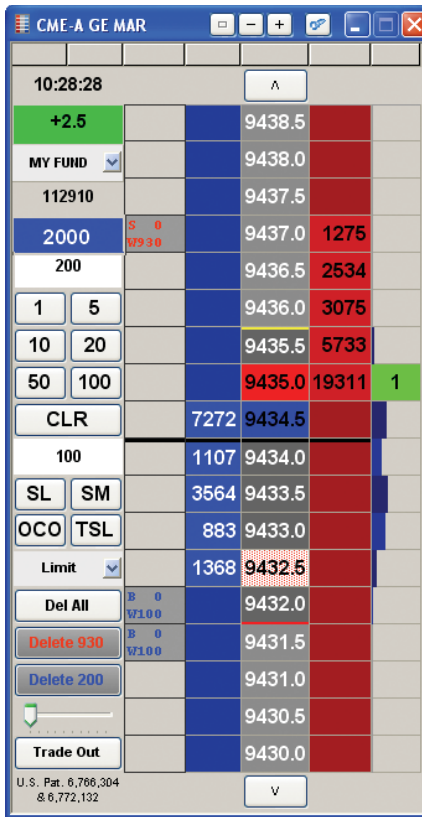

*Refer to the MD Trader screenshot on the right for illustration of all properties.

The speed and reliability of MD Trader have made it the front-end order-entry system of choice.

Over 50% of all electronic orders at the six major futures exchanges execute through X_TRADER[®], the operating platform behind MD Trader.

Why do traders demand the technology behind MD Trader[®]?

MD Trader is simply the best tool available to help traders make money. With unsurpassed speed, reliability and ease of use, MD Trader provides the best the market has to offer. Innovative technology to meet the demands of the most aggressive traders is combined with ease of use and safety features, which enables you to get up and trading in a matter of moments. TT offers an ever-expanding list of asset classes to trade with the most popular front end in the marketplace.

↑ Sample MD Trader[®] window

MD Trader gives it all to you on one screen:

Order Management

- One-click order entry/cancel
- Multiple order types
- Link orders as OCOs
- Place orders as Trailing Stops
- Change order amount/level
- See your position
- See your average price
- Trade multiple accounts
- View estimated Position In Queue (PIQ)

Market Analytics

- View depth of market (DOM)
- View implied price/volume
- View volume at price
- See trade level volume
- See the inside market
- See last trade price and volume

Set your order size, use your mouse to position your pointer at the price level you desire, left click once and you have executed your trade at your level. To change a resting order, simply left click on the order to cancel or right click, drag and release to set a new price level.

With the new Floating Order Book, hold your mouse cursor over a resting order to launch and easily change your order size or price level by clicking on the price or quantity.

Contract	Qty	Chg	Price	TIF	Acct #	Type	Time Stamp	Del
GE MAR	30		9437.0	GTD	484848	Limit	15:26:27.000	X
GE MAR	700		9437.0	GTD	12345	Limit	15:26:10.000	X
GE MAR	100		9437.0	GTD	60174	Limit	15:26:01.000	X
GE MAR	100		9437.0	GTD	60174	Limit	15:26:00.000	X

MD Trader supports customizable layouts so you may design your own order entry template:

- Define order-entry amount keys
- Select favorite order-entry types
- Use right-click/left-click control
- Scroll the market grid with wheel on mouse
- Keep the market centered or allow it to float from top to bottom of grid
- See volume by price, last trade size, market depth
- See your current position and average price
- Drag and drop orders to change price level
- Display prices as net change or in yield

Link to Excel® to Highlight Key Levels

MD Trader can be used as an extension to Excel where live algorithms can adjust your key market levels and graphically show these prices in MD Trader.

	A	B	C	D	E	F	G	H
1					Key Levels			
2		Product	Level 1	Level 2	Level 3	Level 4	Change	Contracts
3		ES	128480.00	128325.25	128277.10	128008.05	575	10
4		NQ	157371.70	157212.10	157100.00	156987.90	350	5
5		YM	11334.22	11320.36	11279.88	11260.07	95	15

↑ The boxes above highlight ES level 128480.00 and YM level 11320.36 underscored in the MD Trader® windows below. Also, users may enter an order size in Excel® (10, 5, 15) and link that cell to an MD Trader® window to allow one right-click order-entry with that quantity.

Open Multiple MD Trader® Windows for Side-by-Side Trading

See how order flow in cross markets affects the market flow where you are trading. Follow the market with TT's static price display and global re-centering of MD Trader so the action is always in front of you.

Already the fastest and most reliable front end on the market, MD Trader continues to evolve as TT innovates based on feedback from traders. See how MD Trader can simplify your trading today!
